### **DETAILED ACTION**

Claims 128 and 130-143 are pending in this application.

#### ***Election of Species***

Claim 1 is generic to a plurality of disclosed patentably distinct species comprising, for example "agent". Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the elected group, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species (e.g., Example 20, page 87), a generic concept inclusive of the elected species will be identified by the Examiner for examination along with the elected species. Moreover, whatever, specific compound is ultimately elected; the applicants are required to list all claims readable thereon.
